

Random Number Generator Certificate

Operator: Endorphina LTD.

Operator URL: www.endorphina.com

This is to certify that iTech Labs has evaluated the Random Number Generator (RNG) used by Endorphina LTD. and found that the RNG complies with the relevant standards.*

The RNG uses a well known algorithm to generate random numbers. The numbers generated by this RNG have passed Marsaglia's "diehard" tests for statistical randomness.

iTech Labs has evaluated scaling for Slots. The scaling tests were conducted on large enough samples to give the calculations sufficient statistical power.

iTech Labs has found that the number sequences are unpredictable, non-repeatable and uniformly distributed.

The certified code for the RNG has been fingerprinted.

04 August 2014

* The RNG was tested according to UK Gambling Commission standards, Malta LGA Remote Gaming Regulations and Remote Technical and Operating Standards for the Gibraltar Gambling Industry.

Disclaimer.

While it is not possible to test all possible scenarios in a laboratory environment, iTech Labs has conducted a level of testing appropriate for a component test of this type.
